Chemistry Faculty Receive Awards

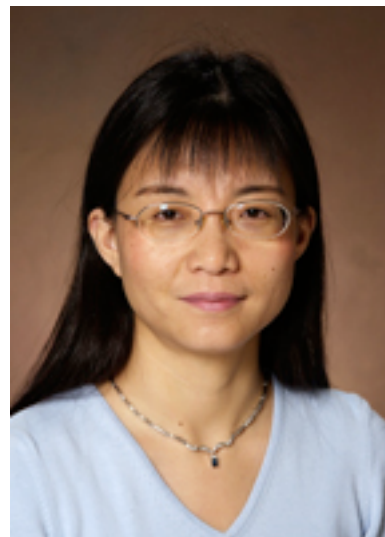

Two faculty from the Department of Chemistry and Molecular Biology have received awards from the College of Science and Mathematics.

Dr. Seth Rasmussen, Associate Professor, has received the *2007 College Award for Excellence in Teaching*. Dr. Rasmussen teaches all levels of inorganic chemistry and has developed a new course at NDSU in Science History. In addition, he serves as the faculty mentor for the Undergraduate Chemistry Club.

Prof. Seth Rasmussen

Dr. Wenfang Sun, Associate Professor, has been awarded the *2007 College Award for Excellence in Research*. Dr. Sun has developed cutting edge research in the area of photofunctional organoic and metallo-organic materials for applications in optical limiting and photodynamic therapy. She has received a National Science Foundation Career Award and is also funded by the Army Research Lab and the USDA.
